### **Pollution Prevention Advisor (00152967)**

Seeking individual with experience in environmental management systems (EMS) to assist businesses with EMS development. Responsibilities include working with members of state environmental leadership program to evaluate assistance needs, coordinate delivery of benefits and incentives, and assist them in their development as environmental leaders.

Applicant will demonstrate attention to detail, strong organizational skills, and exemplary verbal and written communication skills. Starting salary low-mid 40's, depending on experience.

Preference will be given to applicants with experience implementing EMS's, quality management systems or environmental leadership programs.

Applicants must have a bachelor's degree in science, business, engineering or a related field, and at least one year of environmental experience in business, government, or consulting.
